

# SBAC Interim Comprehensive Assessments (ICA)

## Total Number of Items and Hand-scoring Requirements by Subject and Grade

This document is intended to assist LEA CAASPP coordinators, site coordinators, and test administrators in planning for the administration and local hand scoring of the interim comprehensive assessments (ICA). The following table provides key information, including the total number of items appearing on each ICA. This total includes items that are both machine-scored and hand-scored. Also included on this table are the number of items that require local hand scoring on the non-Performance Task (PT) constructed response, the PT constructed response, and the PT essay.
