Evidence of Effectiveness
What changes going forward?
Goals, Actions, Services

Given the lagging data of dashboards - what will tell us next year whether these actions are effective?

How will we know we are making progress?

Did we include all required metrics?

VERY IMPORTANT:

“Site Allocation” is NOT an action or service. All actions and services need to be described within the goal. If they vary by school site, indicate how each site plans to increase or improve services in relation to the goal.
