

CAASPP Institute

Participants in this institute will learn:

- Current updates on the CAASPP system
- The connection between the summative assessment claims, the assessment targets, and California's new standards
- To use summative and interim results to inform instruction
- A variety of ways to organize data
- Specific ways to integrate the three components of the Smarter Balanced assessment system (digital library, interim assessments, summative assessments)

Participants will need to bring their own devices and be able to access their summative data.

TARGET AUDIENCE
