

# ADAPTIVE SCHOOLS<sup>®</sup> SEMINAR

Adaptive Schools<sup>®</sup> is the “how” of professional learning communities: how to behave in groups, lead groups, and facilitate groups for improved leading, teaching, and learning.

The work of Adaptive Schools<sup>®</sup> Seminars is to develop the resources and capacities of the organization and of the individuals to cohesively respond to the changing needs of students and society.

The training explores what makes teams effective, and how to develop skills as facilitators and informed group members in both, formal and informal groups of various sizes. It takes participants beyond the mere concept of professional learning communities to meaningful implementation. Participants will learn specific ways to weave the collaborative fabric of a faculty, develop group member skills, and engage in a continuous cycle of team and individual improvement.
