

In the age of standards, we have spent much time discussing the “what” of classrooms and learning, but in this workshop we will look at the “how”. Join Diana Laufenberg in an interactive workshop about building systems and structures for our classrooms, schools and organizations that allow us to adapt in an ever-changing learning landscape. To move the learning beyond simply asking what students should know to asking what they can create, innovate and imagine, we will explore the following:

- How do we create enough structure to be effective without becoming so rigid that we can't innovate?
- How do we honor the human experience and not just the efficient outcome?
- How do we ensure that it's technology that serves the learning and not the other way around?

Join us for a conversation that may influence the way you think about every decision you make from daily learning objectives to the mission and vision of your school or district.

Systems and Structures FOR CREATING 21st Century Learning Experiences

Target Audience:	Site and District Administrators
Date:	Wed, Nov. 18, 2015
Location:	SBCEO Auditorium
Time:	8:30 a.m. - 3 p.m.
Cost:	\$195 (includes breakfast and lunch)

For the past 16 years, **DIANA LAUFENBERG** has been a secondary social studies teacher in Wisconsin, Kansas, Arizona and Pennsylvania. She most recently taught at the Science Leadership Academy in Philadelphia, an inquiry-

driven, project-based high school focused on modern learning. Her practice has deep roots in experiential education, taking students from the classroom to the real world and back again. Prior to her work in Philadelphia, she was an active member of the teaching community in

Flagstaff, AZ where she was named Technology Teacher of the Year for Arizona and a member of the Governor's Master Teacher Corps. Diana was featured on TED.com for her “How to Learn from Mistakes”. She currently serves as the Executive Director and Lead Teacher for Inquiry Schools, a non-profit working to create and support student centered learning environments.
