

2015 ELA-ELD Framework Overview for Teachers

(a repeat of the Feb. 2015 workshop)

THE ELA/ELD FRAMEWORK* breaks new ground by providing a blueprint for the implementation of two sets of interrelated standards: California's Common Core State Standards for English Language Arts and Literacy, and the California English Language Development Standards.

California's adoption of one Framework for two interrelated standards will support educators in helping all students read, write, and communicate with competence and confidence across a range of academic content areas.

Join us for a day of learning in which teachers work together to:

- understand the purpose, intent, organization and guiding principles in the ELA/ELD Curriculum Framework
- explore the framework's five key themes: meaning making, language development, effective expression, content knowledge and foundational skills
- identify sections of the framework that support classroom instruction
