

PBL 101

Buck Institute of Education's foundational three-day (consecutive) PBL 101 workshop is based on the model of Gold Standard PBL. Participants will gain the knowledge and skills to design, assess, and manage a rigorous, standards-based project. The workshop will be facilitated by one of BIE's expert National Faculty and will model the project process.

Participants will be actively engaged in project design, with the expectation that every teacher or teaching team will generate a project plan that receives formative feedback from both, participants and the BIE facilitator.
